

Full Time Physician – Electrophysiologist

Oracle Heart & Vascular is seeking a board eligible/board certified electrophysiologist to join our established private practice and expand our current EP service line. Candidates should possess a full scope cardiac skill set for device implantation, as well as simple and complex ablations for atrial fibrillation/flutter etc. Additional sub-specialty expertise (i.e. lead extraction, watchmen, etc) will strengthen consideration. The position provides opportunities to also participate in the health system's cardiovascular endeavours and their new GME (residency) program.

WHAT WE OFFER

- Full service, private cardiovascular practice with continual growth and service expansion efforts.
- Opportunity to expand existing EP service line.
- A team of Cardiovascular specialists that supports a one of the Nation's 50 TOP cardiovascular hospitals according to rankings in 2019 and 2020 by IBM Watson Health.
- Provide high quality care in a hospital that was ranked among the top 10 best hospitals in Virginia and one of the best hospitals in the greater DC area as reported by US News and World Report.
- Receive a competitive salary with incentive based annual bonuses
- 3-year partnership track
- Sign-on bonus and relocation/moving reimbursement
- Annual CME Stipend
- Highly skilled and supportive senior partners as well as office/ancillary staff

PRACTICE HISTORY AND INFORMATION

Our dynamic team of cardiologists have been serving the Fredericksburg and surrounding area since 2010. Our growing team includes eleven providers: three interventional cardiologists, one electrophysiologist, three non-invasive cardiologists and four nurse practitioners. We have affiliations with one health system encompassing two hospitals.

One of our core principles remain to explore innovative methods to deliver care as well as an openness to new technologies and management paradigms. In a local marketplace where cardiovascular practices remain independently owned and operated, our practice continues to be one of the fastest growing practices within a 50-mile radius. We are looking for partners to continue building our cardiovascular service lines in this expanding market.

In maintaining attentiveness to the unique needs of our patients, we provide a full spectrum of invasive, non-invasive, vascular, venous treatments, remote monitoring of heart failure, valve repair, and electrophysiology services. Situated amidst the bedroom communities of the DC metro area, population continues to grow exponentially resulting in new opportunities to expand services further in our office as well as in the hospital.

Our practice serves a community of five primary counties in northern Virginia. Its strategic position along the I-95 corridor grants access to both Washington, DC and Richmond metro areas which are located 50 miles north and south respectively. This quaint revolutionary and civil war community has more than historic landmarks; its home to specialty shops, chef-owned restaurants, artisans' galleries/studios, farmers markets, dog parks, wineries, and breweries. Our region is also an outdoor adventurers' paradise, full of beauty to explore and experience from the Rappahannock and Potomac Rivers to Shenandoah Mountains and the shores of the Atlantic coast.

Qualified candidates should apply to: Lori Raley – Lraleley@Oracleheartva.com
