

Registered Vascular Technologist

Oracle Heart & Vascular is looking for a Registered Vascular Technologist (RVT) that is service minded and will possess a strong focus on excellence and patient experience. The successful candidate will be responsible for performing various complex, diagnostic, and non-invasive vascular studies to evaluate the condition of arterial and venous systems.

PRINCIPLE DUTIES AND RESPONSIBILITIES:

- Perform a full spectrum of vascular and non-invasive testing to evaluate arterial and venous circulation.
- Provide routine testing in all related areas to include: Carotid Duplex, PVR, Peripheral Venous Duplex (DVT, Reflux, Lower Extremity Vein Mapping), Native Artery of LE and Bypass Graft Duplex, and Renal Artery Duplex.
- Assist the physician in performing vein ablations.
- Deliver superior patient care with excellent service skills and work ethic.
- Promote continuous improvement and ensure a high level of quality service is provided to all patients.
- Communicate critical findings to provider(s)
- Work closely with the staff, reviewing and updating the ultrasound schedule at each clinic to ensure quality and efficient patient care.
- Ensure a smooth patient schedule that is both efficient and productive, without compromising patient care or education.
- Maintain equipment, ultrasound room, image storage, and assist with managing supply inventory.
- Ability to multitask, remain detail oriented, prioritize effectively, and work as part of a team
- Good computer, written and verbal communication skills
- Excellent decision-making skills regarding diagnostic imaging

EDUCATION AND PREFERRED EXPERIENCE QUALIFICATIONS:

- Current registration as a Registered Vascular Technologist (RVT) through the American Registry for Diagnostic Medical Sonography (ARDMS)
- A minimum of 2 years' experience in vascular ultrasound
- Ongoing maintenance of RVT registration
- Basic Life Support (BLS) certification

Our dynamic team of specialists and associates have been serving the Fredericksburg and surrounding area since 2010. We have 15 providers and deliver a full spectrum of invasive and non-invasive cardiovascular services.
