

Registered Cardiac Sonographer

Oracle Heart & Vascular is looking for a Registered Diagnostic Cardiac Sonographer (RDCS) that is service minded and will possess a strong focus on excellence and patient experience. The successful candidate will be responsible for performing common and complex cardiac sonography of adult patients. The individual will also possess the skill to independently perform and provide timely input of findings on patients including young adult, adult, and geriatric patients with known or suspected cardiac related diagnosis.

PRINCIPLE DUTIES AND RESPONSIBILITIES:

- Assumes responsibility for welfare of patients to ensure a safe and positive examination experience.
- Communicates and maintains proper relations personally with other departments, providers, and patient families to ensure a positive patient experience.
- Performs cardiac ultrasound examinations and processing in a timely, proficient manner to assure efficient patient flow through the department and timely study results.
- Performs advanced cardiac sonography utilizing a variety of equipment and techniques and makes the necessary measurements required for the interpretation to obtain accurate, high-quality results.
- Processes and produces high quality images and reports in all related information systems.
- Communicates any additional information which will assist the Cardiologists in interpreting a patient's echocardiography study.
- Creates a positive team environment.
- Maintains work areas and patient care areas, cleans equipment according to policy and procedure, maintains necessary supplies, and reports any equipment malfunctions to ensure professionalism and safety standards.

EDUCATION AND PREFERRED EXPERIENCE QUALIFICATIONS:

- Possess an excellent understanding of adult physiology and anatomy with knowledge of the related cardiac pathophysiology.
- Current registration as a Registered Diagnostic Cardiac Sonographer (RDCS) through the American Registry for Diagnostic Medical Sonography (ARDMS)
- 2 years' experience preferred
- Ongoing maintenance of RDCS registration
- Basic Life Support (BLS) certification
