

## Full Time Physician – Electrophysiologist

**Oracle Heart & Vascular** is seeking a board-eligible or board-certified **electrophysiologist** to join our established private practice and help expand our growing EP service line. The ideal candidate will be proficient in the full spectrum of cardiac electrophysiology, including **device implantation** as well as **simple and complex ablations** for atrial fibrillation, atrial flutter, and related arrhythmias. Additional subspecialty expertise—such as **lead extraction** or **Watchman implantation**—is welcomed and may strengthen candidacy. This position also offers the opportunity to engage with the local health system's broader cardiovascular initiatives and contribute to their newly launched **GME (residency) program**, providing a well-rounded and academically enriched experience.

### WHAT WE OFFER

- A full-service, growing private cardiovascular practice with an expanding EP program
- Opportunity to expand existing EP service line.
- Collaboration with a team of cardiovascular specialists supporting one of IBM Watson Health's Top 50 Cardiovascular Hospitals, and consistently ranked among the Top 10 in Virginia by *U.S. News & World Report*
- Competitive base salary with annual performance-based bonuses
- 3-year partnership track
- Sign-on bonus and relocation assistance
- Annual CME stipend
- Highly experienced, supportive senior partners and dedicated clinical/office staff

### PRACTICE HISTORY AND INFORMATION

Our dynamic team of cardiologists has proudly served the community since 2010. Today, our growing practice includes 18 providers: 4 non-invasive cardiologists, 4 interventional cardiologists, 1 electrophysiologist, 1 vascular surgeon, and 8 nurse practitioners. We offer a full spectrum of cardiovascular services, including invasive and non-invasive cardiology, vascular and venous procedures, electrophysiology, valve repair therapies, and remote heart failure monitoring. We maintain strong affiliations with a single health system and two local hospitals.

One of our core values is a commitment to innovation—continually exploring new technologies and evolving care models. As one of the fastest-growing independent cardiology practices within a 50-mile radius, we remain focused on expanding our services and infrastructure.

Candidates should share our vision for growth and innovation. As part of our continued development, this role includes the opportunity to contribute to the expansion of the **Oracle Procedural Suite**, shaping the next phase of advanced cardiac care within our practice.

Located in Northern Virginia's rapidly growing I-95 corridor, we serve five primary counties between Washington, D.C. and Richmond. The region offers a rich blend of history and recreation, with access to the Rappahannock and Potomac Rivers, the scenic Shenandoah Mountains, and even the shores of the Atlantic Ocean—all within a short drive. Fredericksburg itself features a vibrant downtown, chef-owned restaurants, wineries, farmers markets, and year-round outdoor activities, making it an ideal place to live and work.

If you're interested in joining a collaborative, forward-thinking practice and helping shape the future of cardiovascular care in our region, please contact: Lori Raley - Email: [LRaley@oracleheartva.com](mailto:LRaley@oracleheartva.com)
