

Find Relief From Knee Pain With GAE

A Minimally-Invasive Solution

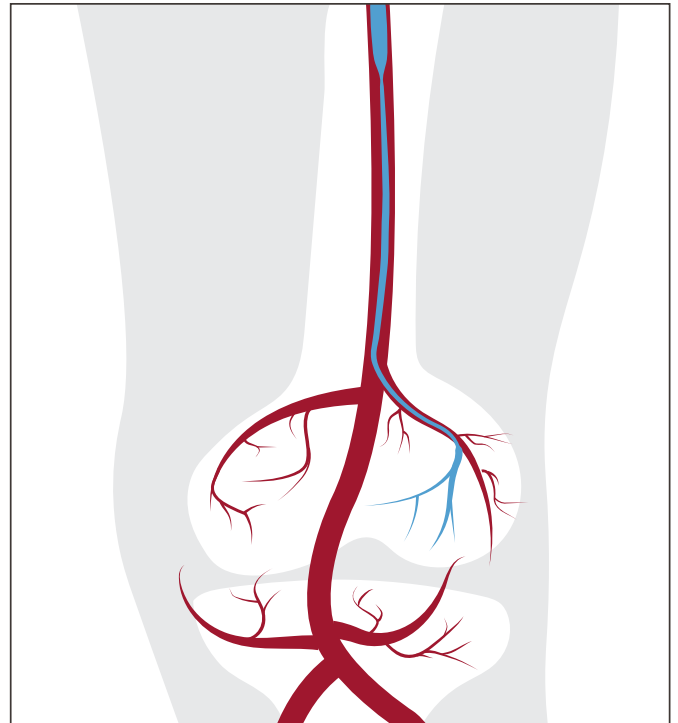

If you suffer from chronic knee pain caused by osteoarthritis, **Genicular Artery Embolization (GAE)** may be the breakthrough you've been waiting for.

HOW GAE WORKS:

Specifically targets abnormal blood vessels that drive inflammation in osteoarthritis of the knee. Patients experience lasting results through a minimally-invasive, non-surgical procedure that is offered at Oracle Heart & Vascular.

BENEFITS OF GAE:

- Minimally-invasive outpatient procedure
- No hospital stay or general anesthesia required
- Quick recovery time
- Effective relief from knee pain
